

## Topics for Seminar

---

- Below are a list of candidate papers for the seminar. You may present papers not in the list, but you would have to check with one of the instructors before doing so.
  - Each presentation is for 30-40 mins.
  - Each presentation must clearly state the problem and the salient points in the proof.
  - The time per presentation being limited, it is advisable to avoid dwelling into the details of the proof.
-
